# 1. System Overview & Architecture

The **Daily Pearls PH Order Management System (OMS)** is custom-engineered to handle the dynamic sales operations of luxury fine jewelry, cultured pearls, custom mounts, and Moissanite stones.

## Multi-Channel Order Flow

Supports Regular Live Selling Reservations, Custom Client Sourcing (*Pasabuy*), and Cash-on-Delivery (COD) orders with line-item management.

## Multi-Payment & Evidence

Handles partial downpayments, remaining balance tracking, and immutable audit logs with receipt proof attachments.

## Moissanite Special Inventory

Dedicated SKU registry, carat/setting specifications, cost accounting, and profit tracking per stone.

## Employee Commissions & Payouts

Attribution of assisted sales to team members with real-time settlement tracking (Paid vs. Unpaid).

# 2. User Roles & Permission Matrix

The system enforces Role-Based Access Control (RBAC) to ensure security across operational workflows:

| MODULE / ACTION                 | OWNER  | ADMIN  | STAFF        | VIEWER       |
|---------------------------------|--------|--------|--------------|--------------|
| Dashboard & KPI View            | ✓ Full | ✓ Full | ✓ Full       | 👁 Read-Only  |
| Create / Edit Reservations      | ✓ Full | ✓ Full | ✓ Yes        | 🚫 No         |
| Record Payments & Upload Proof  | ✓ Full | ✓ Full | ✓ Yes        | 🚫 No         |
| Ship, Claim, RTO & Reship       | ✓ Full | ✓ Full | ✓ Yes        | 🚫 No         |
| Commission Ledger & Payouts     | ✓ Full | ✓ Full | 🚫 Restricted | 🚫 Restricted |
| Moissanite Inventory & Pricing  | ✓ Full | ✓ Full | 👁 View/Link  | 👁 Read-Only  |
| Financial Reports & CSV Exports | ✓ Full | ✓ Full | 👁 View       | 🚫 Restricted |
| User Accounts & System Settings | ✓ Full | ✓ Full | 🚫 Restricted | 🚫 Restricted |

## 3. Logging In & Navigation

### 3.1 Authentication

1. Open your web browser and navigate to `/login`.
2. Enter your registered corporate **Email Address** and **Password**.
3. Click **Sign In** to enter the secure dashboard session.

**i Security Note:** Sessions utilize encrypted HTTP-only cookies. When finishing your shift on shared computers, always click **Sign Out** in the user menu.

## 4. Dashboard & Business Analytics

The main dashboard displays high-priority operational metrics:

- **Total Revenue & Sales:** Aggregated completed collections and total invoiced values.
- **Active Pipeline:** Counters for *Reserved*, *Paid*, *In Transit (Shipped)*, and *Claimed* packages.

- **RTO Watch:** Direct indicator of failed deliveries requiring immediate customer follow-up.

## 5. Orders & Reservation Lifecycle

### 5.1 Reservation Types

- **Regular:** Standard items reserved during live selling streams or direct inquiries.
- **Pasabuy:** Custom-sourced or bespoke jewelry items procured specifically for a customer.
- **Cash on Delivery (COD):** Orders where the full amount or remaining balance is collected by the courier.

### 5.2 Creating a New Reservation

1. Go to **Orders > Reserved** and click **+ Add Reservation**.
2. Input **Customer FB Name**, **Recipient Name**, **Phone Number**, and complete **Shipping Address**.
3. In the **Order Items (Bulk Ordering)** section:
  - Click **+ Add Item** to append multiple line items.
  - Choose source: **Manual Item** or **Moissanite Catalog**.
  - Set quantity and unit price. Line totals compute automatically.
4. Set **Discount** (if applicable) and **Shipping Fee**.
5. Enter the initial **Downpayment (DP)** and choose the **Payment Method**.
6. Click **Save Reservation**. A unique invoice number is automatically assigned.

### 5.3 Lifecycle Flowchart

\* If delivery fails during Step 3, order moves to **RTO** and can be reshipped.

### 5.4 Shipping, Delivery & RTO Operations

- **Ship Order:** Open the order details, click **Ship Order**, select courier (e.g., LBC, J&T, Flash, Grab), and enter the tracking number.
- **Mark Claimed:** Once delivery confirmation is received, click **Mark Claimed**.
- **Mark as RTO:** If returned by courier, specify the RTO reason (e.g., Unreachable, Refused Delivery) and notes.
- **Reship:** Under **Orders > RTO**, click **Reship Order** to assign a new tracking number and restart transit.

## 6. Payment Processing & Evidence

The system supports split payments (initial downpayment followed by balance payments):

1. Open the target order and click **Record Payment**.
2. Choose kind: **Downpayment** or **Balance**.
3. Select the channel: **GCash, Maya, BDO, BPI, UnionBank, COD, Cash, Remittance**.
4. Enter the **Reference Number** and upload the proof of payment receipt image.
5. Click **Save Payment**. The invoice summary and remaining balance update in real time.

## 7. Invoicing & Social Messaging

Located at **/orders/[id]/invoice**, the invoice provides both digital presentation and one-click social messaging:

### Professional Printable Invoice

Formatted with official branding, itemized tables, payment breakdown, and payment receipt thumbnails. Ready to print or export to PDF via

**Ctrl + P**.

### Social Media Fast Copy

Click **COPY INVOICE**, **COPY REGULAR**, **COPY PASABUY**, or **COPY COD** to instantly paste pre-formatted order notifications directly to FB Messenger.

## 8. Collections & Cash Reconciliation

---

Access the **Collections** tab to view a centralized ledger of all funds collected across all channels. Filter by date, payment method, or customer name to conduct fast daily cash counts and bank deposit reconciliations.

## 9. Moissanite Jewelry Inventory & Sales

---

- **SKU Catalog** ( `/moissanite/sku` ): Manage custom stones, settings (Solitaire, Halo, 6-Prong), carat weight, cost prices, and retail prices.
- **Sold Ledger** ( `/moissanite/sold` ): Automatic tracking of sold stones linked directly to customer invoice numbers, showing realized revenue and gross profit margins.

## 10. Products & Category Management

---

Maintain your core product catalog (South Sea Pearls, Freshwater Pearls, Akoya, 14k/18k Mounts, Chains, Earrings) under **Products** and **Categories**. Toggle active/inactive states to control catalog availability.

## 11. Employee Commission Tracking

---

Located under **Commission & Assistance** (Admin/Owner only):

1. Click + **Add Record** to log a sales assistant's contribution to a closed order.
2. The system tracks total monthly commission by staff member, order sales volume, and settlement status.
3. Use the action menu to mark items as **PAID** upon salary or commission payout.

## 12. Customer Directory

---

The **Customers** view provides a complete customer database with contact numbers, delivery addresses, Facebook handles, and cumulative lifetime purchase history.

## 13. Reports, Analytics & Exports

---

Generate high-level and detailed monthly performance summaries under **Reports**:

- Monthly gross and net sales, shipping fees collected, discounts applied.
- Order conversion rates, RTO percentages, and claim rates.
- **CSV / Excel Export**: Click **Export CSV** on any data table across Orders, Collections, or Commissions for external accounting spreadsheets.

## 14. Account Management & FAQ

---

### 14.1 Managing Staff Accounts

Administrators can create new accounts, assign roles (*Staff*, *Admin*, *Viewer*), or deactivate departed personnel under **Accounts**.

### 14.2 Frequently Asked Questions (FAQ)

**Q: How do I handle a customer who paid via GCash first and will pay the balance in Cash?**

A: Enter the initial GCash payment as Downpayment. When the remaining amount is collected upon delivery, open the order and click *Record Payment* with Cash as the method.

**Q: Can I edit an order after saving?**

A: Yes, click the Edit button in the reservation view. Line items and shipping fees can be updated anytime before dispatch.

**Q: How do I print the invoice as a PDF file?**

A: Navigate to the order invoice page, click *Print Invoice* (or press **Ctrl+P** on your keyboard), and select *Save as PDF* as the destination printer.
